

# Hard Roll Slicer

## GU9/GU9W

**LeMatic**

*Cooler to the door*

### FEATURES

- Designed especially for hearth-type product
- Hinge or web slicing capability
- Simultaneously slices six hearth-style sandwich rolls, for a slicing rate exceeding 48,000 hard rolls per hour
- LeMatic's exclusive floating top conveyor is optimized for the individual variations in hearth-type products while producing a consistent slice
- Completely adjustable for slicing height, slicing depth and top conveyor pressure
- Now available in an easy-to-clean, wash-down model that can be completely sanitized with water, cleaning solution and a high-pressure hose
- Push-button controlled power head lift is standard for raising and lowering the head for production operations or for pass-through and maintenance functions
- Slicer head can be mounted on existing LeMatic conveyor frame as pictured or revised design for customer supplied frame
- Design emphasizes safety and reliability, straight forward operation and complete accessibility for maintenance and sanitation

*Shown with optional  
LeMatic conveyor frame*

*Designed to perform. Backed by experience.*

# Hard Roll Slicer

## GU9/GU9W

### GENERAL SPECIFICATIONS:

- Production Rate: Maximum of 800 pcs./min.  
(Based on 4" round roll)
- Electrical: All standard voltages
- Control Voltage: 24 VDC
- Air Requirements: None

Model	Belt Width "A" In. [mm]	Frame Width "B" In. [mm]	# of Knife Spindles
GU9-5-8	26 [660]	34 ½ [876]	5
