

# 2-Position Slicing System

## Configured to Your Specifications

LeMatic Slicers have been the industry benchmark for nearly 50 years. Our standard 2-Position Slicing System can be configured to slice a wide variety of fresh, soft and artisan-style bun and roll products.

### FEATURES:

- Rugged, reliable, sanitary, flexible and safe design
- Heavy-duty stainless steel frame and panel construction
- All controls mounted to slicer frame
- Accommodates one or two LeMatic band, hinge, web or top slicing heads with powered head lifts
- Adjustable guides form multiple lanes, depending on slicing needs
- All slicer adjustments are made by an operator without tools
- Supports both hand-feed and conveyor-feed applications
- Wide (34" belt) and narrow (26" w belt) standard models

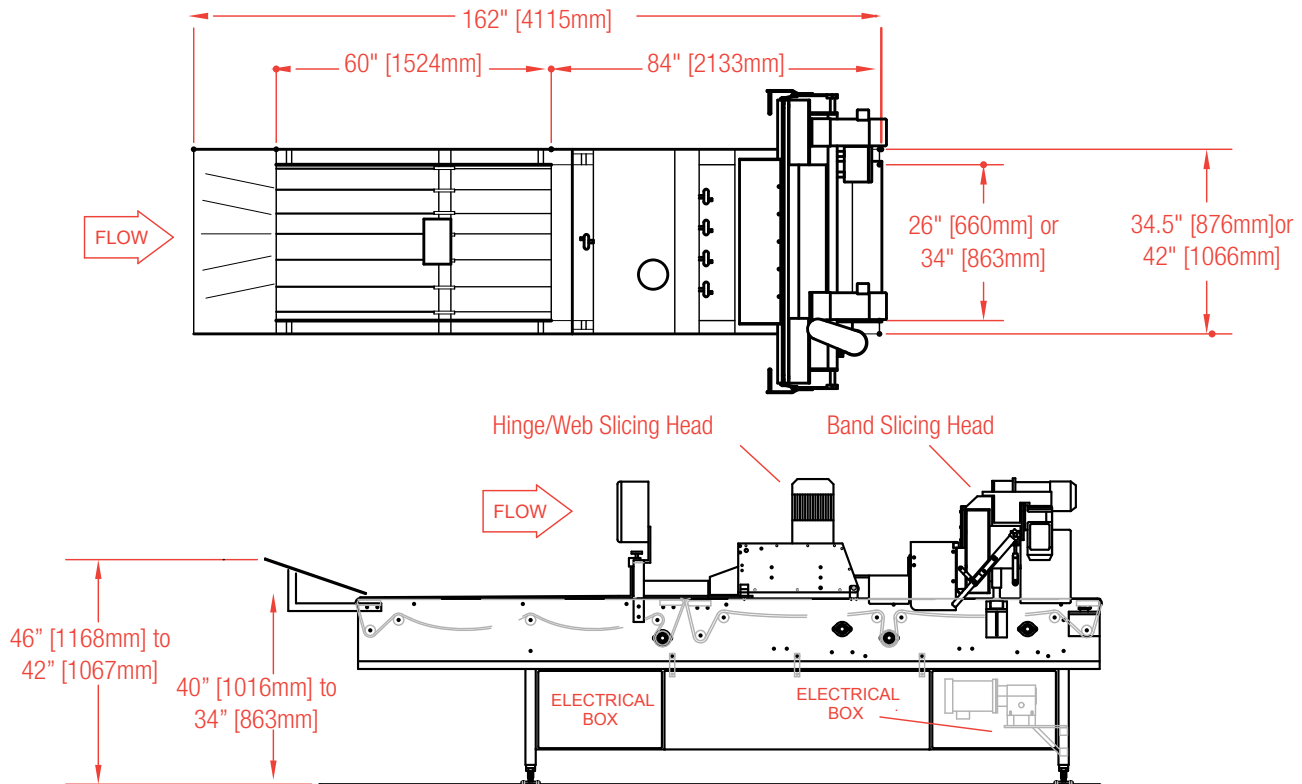

*Product slide with adjustable guide for conveyor feed applications*

*Designed to perform. Backed by experience.*
