

# Soft Product Hinge/Web Slicer

## GU10/GU10W

### FEATURES

- Hinge or web slicing capability
- Exclusive spinner/separator unit provides superior slicing of cluster hot dog rolls
- Floating head pressure design produces a consistent quality slice
- Completely adjustable for slicing height, slicing depth and top conveyor pressure
- Can be mounted on existing LeMatic conveyor frame or revised for customer-supplied frame
- Standard power-lift head raises out of position to bypass unsliced product
- Design emphasizes safety and reliability, straight forward operation and complete accessibility for maintenance and sanitation

*Shown with optional  
head-mounted guides*

*Designed to perform. Backed by experience.*

# Soft Product Hinge/Web Slicer

## GU10/GU10W

| Model     | Belt Width "A" | Frame Width "B" | # of Knife Spindles | Cluster Spinners |
|-----------|----------------|-----------------|---------------------|------------------|
| GU10-5-0  | 26 [660]       | 34½ [876]       | 5                   | 0                |
| GU10W-5-2 | 34 [864]       | 42 [1067]       | 5                   | 2                |
| GU-10-7-0 | 26 [660]       | 34.5 [876]      | 7                   | 2                |
| GU10W-7-2 | 34 [864]       | 42 [1067]       | 7                   | 2                |

### GENERAL SPECIFICATIONS:

- Production Rate: Maximum of 800 pcs./min. based on 4" round roll
- Electrical: All standard voltages
- Control Voltage: 24VDC, other voltages available
- Air Requirements: None
- Slicer Head Drive: 2 HP w/Brake

### OPTIONS:

- Five or seven spindles
- UL, CUL/CSA, CE compliance
- Slicer head for a 26" or 34" wide belt conveyor
- Wash-down construction
- Exclusive spinner/separator unit for slicing cluster hot dog rolls
- Exclusive "Floating Top Conveyor" (FTC), designed especially for hearth or delicate type products, compensates for product height variations
- Band slicing head
